About CEMR and PLATFORMA

The Council of European Municipalities and Regions (CEMR) is the broadest organisation of local and regional authorities in Europe. Its members are over 60 national associations of municipalities and regions from 40 European countries. Together these associations represent some 150 000 local and regional authorities.

CEMR's objectives are twofold: to influence European legislation on behalf of local and regional authorities and to provide a platform for exchange between its members associations and their elected officials and experts.

Moreover, CEMR is the European section of United Cities and Local Governments (UCLG), the worldwide organisation of local government.

CEMR is the lead partner and coordinator of PLATFORMA – a pan-European coalition of 31 local and regional governments, and their associations representing them at the national, European and global levels, engaged in decentralised development cooperation. It is co-financed by the European Union, and currently focuses on four main strands of work: advocacy, capacity-building, awareness-raising and internal governance. In 2015, CEMR-PLATFORMA signed a Framework Partnership Agreement with the European Commission which terminate at the end of 2020.
