**Call for twinning arrangement | Appel à jumelage | Oproep stedenband**

Dear Sir/madam,

As part of our local global policy at the Municipality of Oostkamp, we want to embark on an international partnership. We are looking for a long-term collaboration with a local government where the initial focus will be on themes such as social cohesion, care and education.

Please find enclosed a profile of Oostkamp which provides further details about our search for a partner. We have prepared the profile in Dutch, English and French with a view to smooth contact in the future. These are the languages that are most accessible for us for future initiatives under the partnership.

If this document has sparked interest in your local government and you would like to consider in more depth how residents can connect with one other, how we can create commitment and how local government can enable people to care for one other, we warmly encourage you to contact us by 1 November 2022 at [mondiaal@oostkamp.be](mailto:mondiaal@oostkamp.be). We look forward to hearing about you and why you are interested in partnering with us. You can find more information about putting yourself forward as a candidate on the final page of the Oostkamp profile that is enclosed.

We look forward to a positive response and to interesting discussions.

Kind regards,

  
Jan Compernot  
General Manager

  
Jan de Keyser  
Mayor
